Profile

Elizabeth Dudley-Jones is regularly instructed in Regulatory Criminal cases arising from alleged failures in the workplace, often where death or personal injury has resulted. She appears in cases where Criminal, Professional Disciplinary or Healthcare related allegations arise.

She is registered with the Bar Council for direct access.

She has two children and when she is not working she enjoys the Welsh seaside, cooking and walking her dog.

Professional Negligence / Professional Discipline

She has 16 years experience in defending cases before juries and prosecuting cases before professional panels and tribunals. Her principal specialisms relate to medical and healthcare practice and law, involving professional negligence and professional discipline. She has been included on the General Medical Council's preferred list of counsel and has prosecuted them for the past ten years. She regularly successfully prosecutes high profile GMC cases before the

Fitness to Practice Panel. She has a wide experience in professional disciplinary cases (often linked to employment) and she has conducted cases before various tribunals, trusts and professional bodies, as well as during proceedings in the Employment Tribunal. She is one of the only barristers in the country who is instructed by the Civil Aviation Authority to conduct their cases for them outside of London.

She is also experienced in the Coroner's Court and has acted in a number of cases and inquests. Her broad medical knowledge and jury experience assists her to obtain good results for her client. She recently obtained a good result for a local authority appearing on behalf of social services involving the death of a 'Meals on Wheels' service user.

Health, Safety and Environmental

She has a keen interest in health and safety and environmental law and has prosecuted cases for local authorities in the environmental and healthcare fields. She was instructed by a local authority in a high profile case, successfully bringing complicated proceedings against two company directors for serious breaches of food hygiene following the poisoning of 64 customers with the rare *Giardia Lamblia* parasite via water at a restaurant. She has also been involved in a case involving radon gas, involving the use of a radon sump. She also has experience of cases involving infection control and hazardous waste management.

Crime

Elizabeth's background is in criminal work where she has defended all walks of life and has an ability to appeal to a wide audience of people. She has also successfully defended professionals charged in cases involving regulatory, fraud or sexual offences. She has a particularly notable success rate. Her experience ranges from representation in serious fraud trials (one VAT fraud case lasted over 9 months before a jury), employment fraud, big money confiscation involving sums in excess of £80 million, High Court restraint and receivership and other financial proceedings. She has also conducted other very serious criminal cases such as murder, rape and other sexual offending. She is categorised by the Crown Prosecution Service at Category 3 level and is listed by them as specialist rape counsel.

Mental Health Law

She has an ability to represent those with vulnerabilities, in particular mental health issues, representing those with significant mental health problems. Elizabeth also represents vulnerable adults and has acted for a significant number of children many of whom also suffer with learning disabilities, such as Asperger Syndrome, ADHD and Downs Syndrome.

Notable Cases

Practice Area: Professional Discipline

Defended a lead hypertension practice nurse of 35 years on serious charges before the Nursing and Midwifery Council. Accused of deliberately and dishonestly recording incorrect blood pressures of approximately 5,000 patients over 5 years and various other misconduct charges relating to 6 other patients.

Following a successful submission of no case to answer in respect of two patients at half time, the Panel considered and granted an application to adjourn for a defence expert to consider disclosure made of medical records made by the NMC mid hearing on a defence application for disclosure for them before the Panel. Following the service of those records, a defence expert reported and the NMC's expert agreed that after analysis of the blood pressure data relating to all the nurses and a doctor at the practice, the expert findings indicated that the registrant was not dishonest. A further application was made by Miss Dudley-Jones at half time (almost three years since the first closure of the NMC's case) and the Panel agreed, dismissing the charge of dishonesty.

The registrant then admitted the balance of the charges and Miss Dudley-Jones made a submission only in respect of misconduct (not impairment) and the Tribunal agreed and determined that none of the charges that remained amounted to serious misconduct. The case concluded with the registrant being totally exonerated by the Panel.

Instructed by Lavinia Houghton and Rachael Wake of the Royal College of Nursing, Bolton and Leeds.

HSE v MW

Practice Area: Health & Safety
